Megan Hineman, Secretary

Dear Connoquenessing Township Resident,

As you may be aware, the Township has entered into a Consent Order and Agreement (COA) with the Pennsylvania Department of Environmental Protection (DEP) effective June 21, 2024. In part, the COA requires the Township to develop, approve, and submit a revised Act 537 Sewage Facilities Plan for providing public sewers to areas of the Township no later than June 21, 2025. That plan will then be reviewed, and subsequently approved by DEP; and then must be implemented.

As a part of that plan preparation, and as required by the COA, the Township has hired a sewage enforcement officer to conduct on-lot surveys. These surveys shall be conducted on properties that have on-lot disposal systems throughout the area included in the previously approved plan; that does not necessarily mean that the entirety of the area will be served by the future project; but the entire area must be surveyed to remain in compliance with the COA.

The survey will be conducted using only visual means; no soil, septic system, or drinking water testing will occur. No disturbance to private property shall occur and the entire survey will be conducted on foot; the Township appreciates your cooperation during this survey as we meet the requirements of DEP.

Additionally, you will find attached a simple survey that will assist our inspectors in their evaluation of existing conditions; the Township thanks you in advance for completing it as best you can and returning it to the Township office in the enclosed self-address and stamped envelope.

If you have any specific concerns regarding this work, please call the Township office and they will note your concerns.

Thank you,

Connoquenessing Township Supervisors.

Larry Spangler, Chairman

Ricky Kradel, Vice-Chair

Angela Fleeger, Supervisor
