Pre-Application Questions: Paul Frederick – requesting 2nd driveway. Second driveway is intended to park car trailer and camper. Wants to gravel the area. Existing driveway goes to a carport. Reviewed driveway ordinance 237.10 – Is this an extension to the current driveway? Would bring ground space to level space. May just gravel area on property and restore back area. 15 feet apart for multiple driveways serving the same property. Currently has 35 foot from existing driveway to second requested driveway. Recommended going to supervisors to recommend approval for second driveway as it is today. Bottom line is, if there is no gravel touching the road it would not be considered a second driveway. As long as there isn't a definite exit. Maintain right away to township specifications. Subject to road superintendent approval.
