COMMENT PERIOD

Kristine Klink questioned the survey being conducted by the Sewage Enforcement Officer regarding failed onlot systems. Her concerns were 1) do the citizens get to vote on whether we get public sewage and 2) if we do get sewage, do all residents need to tap in? The supervisors said there is 1) no option, the DEP is mandating that we update and approve our Act 537 plan for installation of public sewage and 2) if sewage comes through, the resident must tap in.

Jenley Birch questioned needing a permit to repair her system. The board stated once the Act 537 plan is in place the DEP will allow temporary permits for fixing her system until public sewage is available.
